FOREWORD

NABARD takes pride in the fact that the Self Help Group – Bank Linkage Programme which is the largest microfinance programme in the world, today touches

12.4

crore households through more than

102

lakh SHGs with deposits of over

₹26,000

crore and annual loan offtake of more than

₹77,000

crore and loan outstanding of over

₹1,00,000

crore

A quarter of a century ago, when the microfinance sector was still in its nascent stage and formal credit to the poor people was next to nothing, NABARD had designed and spearheaded one of the most unique financial inclusion initiatives namely, the Self Help Group-Bank Linkage Programme(SHG-BLP). This programme has now metamorphosed into the world's largest microfinance movement that changed the lives of more than 12.4 crore poor households involving 102.43 lakh SHGs with a credit outstanding of around ₹1,08,000 crore, as on 31 March 2020. NABARD's endeavour in skilling the SHG members through Micro Enterprise Development Programme (MEDP) enabled 5 lakh SHG members to receive training through approximately 17,700 MEDPs to start micro enterprises. In order to help the SHG members in using the Bank linkages to expand their economic activities for improving their income level, through livelihood opportunities and market linkages, NABARD's Livelihood Entrepreneurship Development Programme (LEDP) has been implemented since 2015 with 780 programmes wherein 89,127 SHG members have been trained.

Never the one to rest on laurels, NABARD had also conceptualised and embarked on the ambitious "EShakti" project in 2015, for digitising all the existing SHGs to widen and deepen bankers' engagement with them. "EShakti" captures the financial and non-financial profiles of SHGs and their members and provides reliable, upto date data to bankers and other stake holders at the click of a button. The project is currently being implemented in 254 districts across the country and as on 31 March 2020, 6.54 lakh SHGs involving 72 lakh members in more than 98,000 villages have been on-boarded to the "EShakti" portal.

NABARD's prestigious annual publication "Status of Microfinance in India" has long since been a credible and comprehensive document on Microfinance sector that all the stakeholders refer to and rely on, be it the Bankers, NGOs, MFIs , Govt. Depts., NRLM, Reserve Bank of India and Govt. of India and the Policy Makers. My deep appreciation to all our channel partners without whose contribution and cooperation, this excellent SoMFI document would not have been possible. Team Micro Credit Innovations Department (MCID) deserves all the kudos for their tireless efforts in compiling, collating, analysing and bringing out this publication.

After being an intrinsic part of the vision and mission of NABARD for more than 35 years and a vanguard in various capacities, I have recently taken over the reins as Chairman of this wonderful institution that has no parallel in the world. I'm extremely grateful to all our channel partners for being staunch supporters throughout NABARD's eventful journey. I firmly believe in the famous William Blake's quote ***"No bird soars too high if he soars with his own wings"*** and hope to have your continued backing, support and cooperation in all our future endeavours in empowering and taking the Indian Microfinance sector to great new heights.

1. MICRO FINANCE IN INDIA

Microfinance recognizes that poor people are remarkable reservoirs of energy and knowledge, posing an untapped opportunity to create markets, bring people in from the margins and give them the tools with which to help themselves.

~Kofi Annan

1.1 The Self Help Group Bank Linkage programme (SHG-BLP) is a landmark model initiated by the National Bank for Agriculture and Rural Development (NABARD) in 1992 to deliver affordable door-step banking services and has largely achieved the stated goals of financial inclusion. It is a home-grown self-help movement with an objective of creating sustainable livelihood opportunities for the rural poor. Started as a bank outreach programme, SHG-BLP transcended itself into a holistic programme for building financial, social, economic, and of late, technological capital in rural India. NABARD has pioneered the SHG–bank linkage model which positions the SHGs as financial intermediaries to enable the flow of bank loans to poor members without physical collateral. The movement has emerged as the world's largest as well as the fastest growing microfinance programme and most successful network of women owned community-based microfinance institution. The SHG–bank linkage model as it has developed in India is now a major model of microcredit globally.

1.2 Evolution of Self-Help Group Movement

The history of rural credit, microfinance and poverty alleviation are inextricably interwoven. After nationalization of the banking sector in India and with rapid expansion of the banking network substantial flow of resources to the priority areas took place. However, the physical outreach of the banking sector did not translate into an inclusive process, as majority of the population could not avail the benefits of institutional services. An Action Research Programme was launched by NABARD to identify the real reasons for this inequality. This study brought out the mismatches between the needs of the poor clients and the products in offer with the banking system. It was revealed that the poor needed better access to financial services and products. In 1987, based on the success of the Action Research programme sanctioned by NABARD to Mysore Resettlement and Development Agency (MYRADA), a pilot was launched in 1992, which envisaged linking of 500 SHGs by the end of 1994.

1.3 Self Help Groups were thus conceived as informal groups of 10-20 members having homogeneous socio-economic background coming from a small contiguous area, to operate on the principle of self-help, solidarity and mutual interest. They are encouraged to make compulsory thrift of the uniform amount as decided by them and pool resources so created to extend interest bearing loans to its members to meet their emergent needs. SHGs are given the freedom of charging interest from their members at the rate as decided by group consensus. Recovery is to be a mechanism of peer pressure. The process helped SHG members imbibe

Drafted by Smt Prafulla T Kurien, DGM

the essentials of financial intermediation, including prioritization of needs, setting terms and conditions and maintaining books of accounts. This was their learning ground before they could be in a position to handle bigger size funds by way of credits from banks.

1.4 It is interesting to note and remember that three radical innovations were introduced through the RBI/NABARD guidelines during the pilot phase. They were (a) acceptance of informal groups as clients of banks – both deposit and credit linkage (b) Introduction of collateral free lending and (c) Permission to lend to group without specification of purpose/activity/project.

1.5 The SHG Bank linkage programme spearheaded by NABARD had a modest beginning with 225 credit linked groups and a loan amount of ₹29 lakh in 1992. Within 3 years, 4,750 SHGs were credit linked with different banks with bank loan of ₹6.06 crore covering 28 commercial banks, 60 RRBs and 7 Cooperative banks. The overwhelming success of the pilot led to RBI mainstreaming SHGBLP as normal business activity of banks and rest as they say is history. Later, RBI declared the SHG-BLP as a priority sector lending activity in April 1996. Since 1999, Government of India has been supporting by way of special budgetary provision for promotion of the SHGs.

1.6 The SHGs that came to be promoted by Indian NGOs, Banks and Government agencies can be described as a form of a micro bank as it raises equity and deposits, as well as external funds, and on-lends them. Harper et al. (1998) had described Indian SHGs as on-lending groups which collect their own equity capital, and savings deposits, from their owners, who are also the members and the customers, they lend out their money to the members, at interest rates which they decide, and they accumulate profits which they choose either to distribute to the owners, or to add to the fund at their joint disposal.

1.7 With the achievement of dream project of promoting one million SHGs by 2005, three years ahead of the schedule, SHG BLP became a massive programme and now touching the lives of more than 120 million poor households of the country. It has become a mass movement of the rural poor in their journey towards holistic empowerment.

1.8 For making SHG Bank linkage programme more client friendly and addressing some emerging issues, NABARD suggested certain product level changes under SHG-2 by reiterating thrust on savings with introduction of voluntary savings, smooth flow of credit with sanction of cash credit limit to SHGs, improved risk mitigation mechanism, leveraging second level institutions like SHG Federations for sustained hand holding support, promoting JLGs out of SHG members, strengthening the monitoring mechanism, etc.

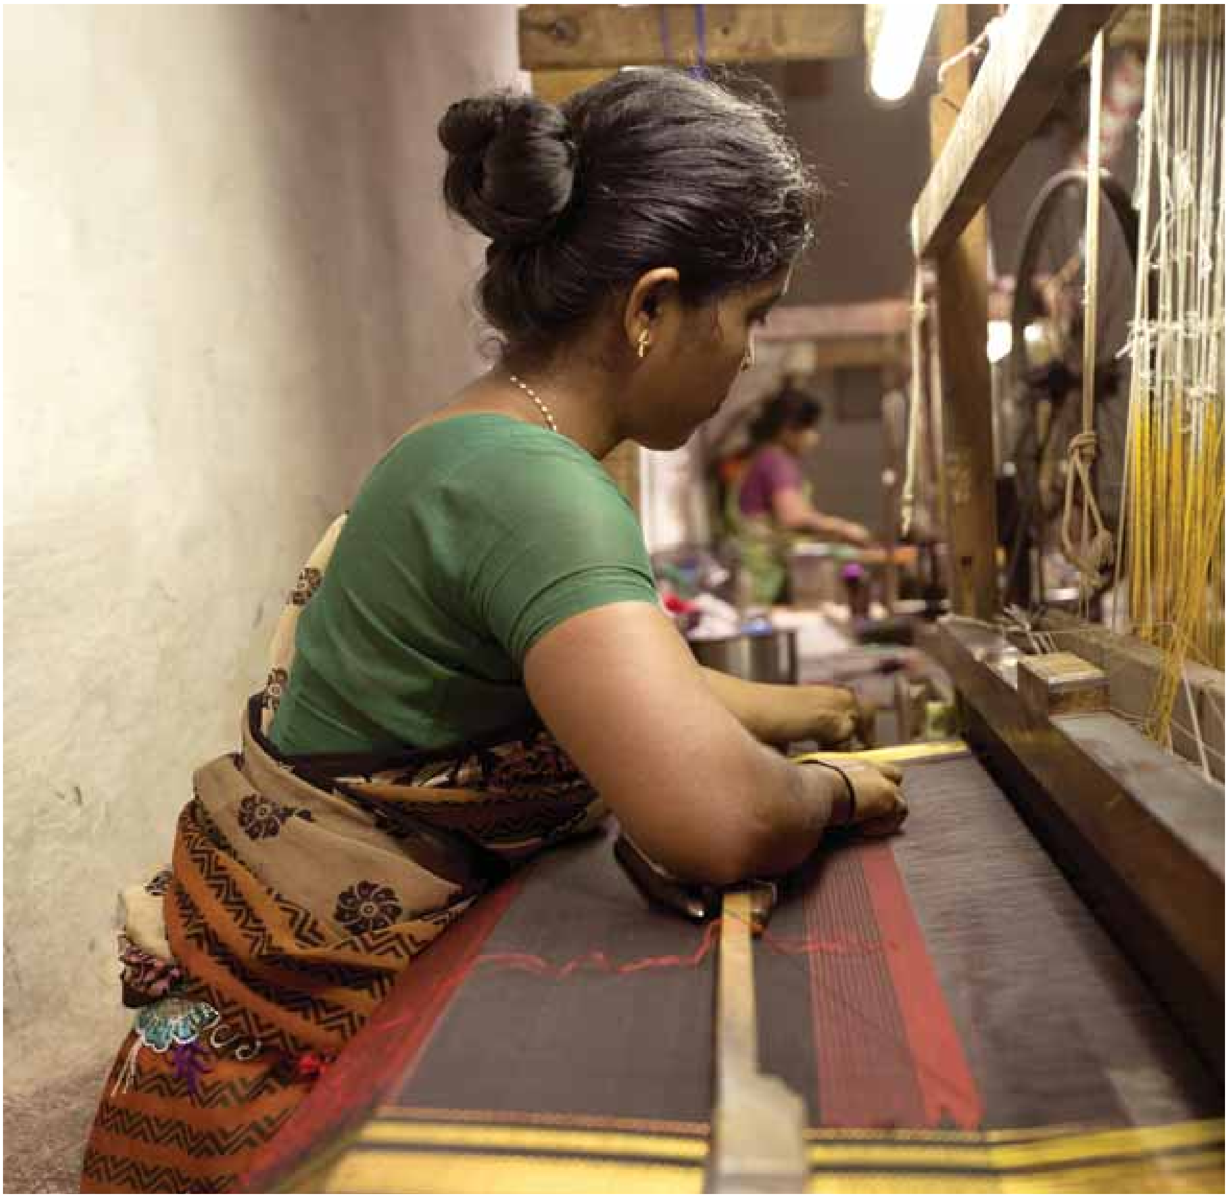
1.9 SHG-Bank Linkage Programme has become more popular in India than elsewhere in the world primarily due to its widespread adoption by Scheduled Commercial Banks, Regional Rural Banks and Cooperative Banks. NABARD has continued to support more than 5,000 partner agencies such as NGOs, RRBs, District Central Cooperative Banks and other SHPI partners for promoting and nurturing SHGs.

1.10 The success of SHG-BLP also attracted the attention of State governments. Many of the State governments, over a period, undertook through departmental initiatives major programmes of SHG promotion. Notable among the state governments was Andhra Pradesh with Podupulakshmi programme, Indira Kranti Patham programme

of AP, Jeevika Project of Bihar, TRIPTI and Mission Shakti projects in Odisha were some of the other projects.

1.11 The SGSY (Swarna-Jayanti Gram Swarojgar Yojna) of GoI was implemented with group mode of financing for covering all BPL families. SGSY was restructured in 2011 to form National Rural Livelihood Mission (NRLM) to be implemented in mission mode across the country. NRLM is an entirely group centric, group driven poverty alleviation programme. NRLM's components are: formation, federation and financing of women SHGs; livelihoods programme for rural women farmers and agricultural labourers; value addition in non-timber forest produce in tribal districts; gender rights issues and various programmes. One of the core objectives of the mission is to make rural people particularly women a new category of clients and take them beyond financial inclusion to achieve economic inclusion and enable them to participate and benefit from mainstream economic benefits. It aims to cover all the rural districts in the country intensively, in phases.

1.12 After more than 25 years of SHG Bank linkage, the programme has grown exponentially, the system has evolved and matured enabling the SHGs access to large loans under SHG BLP besides loans that SHGs have been able to access from their own federations and the NGO MFIs. As on 31 March 2020 the SHG BLP programme has reached many a milestone with a total membership of about 1.02 crore groups covering 12.4 Crore households across India. The programme has made an indelible mark on the Indian financial landscape by extending loans to the extent of ₹1,08,075 crore to 56.77 lakh SHG as on 31 March 2020.



1.13 During the year 2019-20 the number of SHGs increased by 2.29 lakh with a corresponding increase in the savings by ₹2,827.57 crore as on March 2020. The savings outstanding of SHG with Banks as on 31 March 2020 has reached an all-time high of ₹26,152.05 crore. During the year the banks have disbursed loans of ₹77,659 crore recording an increase of 33.17 % over the last year. The total loan outstanding of SHGs also increased by 24.08 % and stood at ₹1,08,075.07 crore as on March 2020 as against ₹87,098.15 crore in the previous year. The gross NPAs of the bank loans to SHGs declined from 5.19% as on 31 March 2019 to 4.92 % as on 31 March 2020 at the all India level.

1.14 NABARD in tune with the Hon'ble Prime Minister's dream of a Digital India and its own line of thinking on digitization launched a pilot project for digitization of SHGs titled "EShakti" in March 2015 in 02 districts viz. Ramgarh (Jharkhand) and Dhule (Maharashtra). The overarching vision was to empower the SHGs through technology. EShakti is designed to capture the demographic and financial profiles of the SHGs as well as their members, so as to bring them under the fold of Financial Inclusion and thereby enable them access to wider range of financial services along with increasing the bankers' comfort in credit appraisal and linkage. Encouraged by the positive response and interest generated amongst the stakeholders in Phase I, the pilot project was expanded to 23 more districts under phase II in 2016 and was further expanded to 75 more districts towards the end of 2017.

1.15 During the year 2019-20, 150 more districts have been covered under the project. The implementation of the project is currently going on in 254 districts across the country. As on 31 March 2020, data pertaining to 6.54 lakh SHGs involving 72 lakh members in more than 98,000 villages have been on-boarded to E-Shakti portal. It has facilitated bankers in providing credit to SHGs based on performance and significant increase in credit linkage has reduced Saving-Credit linkage gap. The credit linkage with banks under E-Shakti (all phases) has increased from 2.17 lakh (33%) to 3.21 lakh (50%) as on 31 March 2020 thus proving the success of the project. More than 15,000 Animators hired by 591 IAs (NGOs, SRLMs, Banks, etc.) are working in the field to ensure continued success of the project. The E Shakti has promoted transparency through SMS alerts in local language (10 languages) to members and boosted the confidence among the SHG members.

1.16 Under the GoI scheme for promotion of Women Self Help Groups (WSHGs), 2.11 lakh women SHGs (WSHGs) have been savings linked and 1.29 lakh of them have been credit-linked in 150 backward/Left Wing Extremism (LWE) affected districts spread across 29 states. A cumulative amount of ₹139.43 crore has been utilised as grant assistance out of the WSHG Fund for various activities up to 31 March 2020.

1.17 The SHG-Bank Linkage, spearheaded by NABARD, has proved to be a successful instrument in providing access to financial services from the formal banking sector for asset less poor. Taking this learning of collateral free lending further, NABARD piloted and developed an effective credit product for mid-segment clients- "Joint Liability Groups" (JLGs). This product facilitates hassle-free credit which is of longer term; fulfilling seasonal needs of credit larger in quantum. The product however, relies on mutual guarantee of clients like small /marginal/tenant farmers, oral lessees and sharecroppers, micro-entrepreneurs, who have no conventional collateral to offer. It leverages on social collateral offered by the members.

1.18 A lot of emphasis is being laid by the GOI for providing hassle free credit to landless farmers. Accordingly NABARD made efforts in innovating and reaching out to the landless farmers through JLG scheme of financing. Encouraged by NABARD's 100 per cent refinance support to banks, the Scheme has also recorded an impressive growth during 2019-20 with 41.80 lakh JLGs receiving financial assistance to the tune of `₹83,102.94 crore from various banks. Under the Scheme NABARD has extended cumulative grant assistance of ₹201.10 crore to Joint Liability Groups Promoting Institutions (JLPIs) for promoting 11.13 lakh JLGs across the country and enabling flow of collateral free loan to tenant/ landless farmers.

1.19 Under the business model of JLG promotion and financing, NABARD has so far entered into 53 MoUs in 22 States; comprising 38 MoUs with RRBs, ten MoUs with SBI in 8 states, one MoU each with Syndicate Bank, Allahabad Bank and Union Bank and two MoUs with State Cooperative Banks in Jharkhand and Odisha. Under this scheme, NABARD provides grant assistance to Banks for using corporate BC/ NGO- as JLGPIs and for capacity building to create a pool of trainers out of bank staff for formation, nurturing and financing of new JLGs.

1.20 The search for delivering financial services to the rural poor in a sustainable manner led to two distinct approaches for extending microfinance in India i.e. a bank led approach called Self Help Group – Bank Linkage Programme (SHG-BLP) and Micro Finance Institution led approach. Microfinance Institutions (MFIs) emerged in India in the late 1980s in response to the gap in availability of banking service for the unserved and underserved in rural population. These institutions operating in the country follow a variety of credit methodologies. The work of these institutions commenced around the same time as the SHG-Bank Linkage Programme was evolving. Many of them were inspired by the Grameen Bank in Bangladesh and the innovations taking place in Latin America. Voluntary agencies and Non-Governmental Organisations (NGOs) undertook financial intermediation as a part of larger social good. Majority of these NGOs were registered as a Trust or a Society. Many NGOs have also helped SHGs to organise themselves into federations and these federations were performing non-financial functions like social and capacity building activities, promotion of SHGs, facilitating training of SHGs as well as undertaking internal audit.

1.21 In the initial years of setting up of MFIs in their NGO-MFI form it was NABARD which assisted them with grant support and Revolving Fund Assistance (RFA). Later NABARD helped a number of MFIs with quasi-equity and subordinated debt instruments from Micro Finance Development and Equity Fund (MFDEF).

1.22 Similarly SIDBI supported the growth story of MFIs through its SIDBI Foundation for Micro Credit (SFMC) in 1999. The India Microfinance Equity Fund (IMEF) later supported MFIs, especially the medium and smaller ones with equity and quasi-equity.

1.23 The Micro Units Development & Refinance Agency Ltd (MUDRA) NBFC set up by the Government of India (GoI) in 2015 with its total focus on microenterprise has to hand-hold and facilitate the development process of smaller MFIs and not-for profit MFIs as they are the ones who operate in remote locations and with the more underserved populations.

1.24 As per Sa Dhan Report 2019-20, Microfinance operation in India is spread across 627 districts of 37 states and union territories. Banks are leading with 625 districts, followed by NBFC-MFIs with 606 districts, SFBs with 600 districts, NBFCs with 524 districts where as Non-Profit MFIs operate in 313 districts. Tamil Nadu, West Bengal, Bihar, Karnataka, and Maharashtra are the top five states in terms of loan portfolio outstanding and active loan account. As on 31 March 2020, the combined micro credit portfolio of 191 lenders is ₹2,28,669 crores, On a YoY basis, the portfolio has increased by 27%. The average ticket size of the sector is ₹35,504. As of

31 March 2020, the combined micro credit client base of all lenders has reached to 103.6 million.

The regional spread shows that East, North East and South, continue to contribute 2/3rd of microfinance portfolio as well as unique borrowers. The share of portfolio outstanding of the various players (191) indicate that the 14 Banks' share was ₹91,913 crore (40%), 86 NBFC- MFIs was ₹74,779 crore (33%) and 8 Small Finance Banks was ₹39,872 crore (17%), 53 NBFCs was ₹20,209 crore (9%) and 30 Non Profit MFIs ₹1,895 crore (1%). The year on year growth was NBFC MFIs (38%), Banks (24%), SFBs (30%), NBFC (6%) and Non Profit MFIs (38%).

1.25 RBI has taken steps to expand the banking space to ensure greater financial inclusion and in November 2014 issued guidelines for the setting up of Small Finance Banks and Payments Banks. On 16 September 2015, RBI granted in-principle approval to ten entities to start Small Finance Banks (SFBs) which would essentially undertake basic banking activities that include: accepting deposits, savings, credit, insurance, remittances etc. and lending to under-served sections. The share of portfolio outstanding of the Small Finance Banks was ₹39,872 crore as on 31st March 2020.

1.26 The establishment of Small Finance Banks (SFBs) also opened up another window of opportunity for reinvigorating the SHG-Bank Linkage Programme. SFBs have operated on the JLG methodology, as well as some of them worked on the SHG model also. Strategic partnerships with them for SHG-Bank Linkage Programme have the potential to take SBLP to greater heights in the next couple of years.

1.27 The setting up of Payment Banks has also given a further fillip to the microfinance sector. Partnerships between MFIs and Payment Banks can ensure that MFIs' clients can avail of financial products other than credit from the latter. Additionally, the cash and remittance management services of MFIs can be taken care of by the Payments Banks.

1.28 In India, there are around 15 P2P lending platforms. Some of these are involved in the business targeted at micro finance activities with the stated primary goal being social impact and providing easier access of credit to small entrepreneurs. They provide web-based platform to bring the lenders and the borrowers together. One of the main advantages of P2P lending for borrowers has been lower rates than those offered by money lenders/unorganized sector and the advantages for lenders are higher returns than what conventional investment opportunities offer. RBI's guidelines in 2017 on Peer to Peer (P2P) lending also opens up a window for some MFIs with technology wherewithal to transform themselves into P2P players for the microfinance segment. As per RBI Circular updated guidelines dated December 23, 2019 the aggregate exposure of a lender to all borrowers at any point of time, across all P2P platforms, shall be subject to a cap of ₹50,00,000 provided that such investments of the lenders on P2P platforms are consistent with their net-worth. The lender investing more than ₹10,00,000 across P2P platforms shall produce a certificate to P2P platforms from a practicing Chartered Accountant certifying minimum net-worth of ₹50,00,000. Such platforms may meet the financial requirements of self-governing institutions.

1.29 Social stock exchanges (SSEs) as proposed in the Union budget will act as crowd-sourcing platforms for fund-raising by non-profit entities aimed at impact investment and transparency, and will be regulated by the Securities and Exchange Board of India (SEBI). Social Stock Exchanges

will be a shot in the arm for social organisations to mobilise funds for the good of the society and is an innovative and concrete step towards inclusive growth.

1.30 NABARD has been continuously supporting training and capacity building of different stakeholders of SHG Bank linkage programme such as Bankers, NGOs, Government Officials and SHG member trainers. During 2019-20, 3,592 training programmes were conducted covering 1.53 lakh participants from various banks/stakeholders under FIF. Further, 1,152 training programmes covering 0.69 lakh participants were conducted under WSHG Fund. Cumulatively, around 2.79 lakh participants have been imparted training under WSHG fund support and 40.45 lakh participants were trained under FIF.

1.31 With a view to create livelihood options for the SHGs, NABARD has been promoting MEDPs and LEDPs for skill training of SHG members. NABARD's endeavour in skilling the SHG members through Micro Enterprise Development Programme (MEDP) continued during 2019-20. 12,719 members were trained through 425 MEDPs during 2019-20 for enabling them to start micro enterprises. Cumulatively, around 5.00 lakh SHG members have received training through approximately 17,700 MEDPs.

1.32 Livelihood and Enterprise Development Programme (LEDP) was initiated on a pilot basis in December 2015 with a view to create sustainable livelihoods among SHG members and to obtain optimum benefit from skill upgradation. LEDP envisages conduct of livelihood promotion in both farm and off-farm activities under project mode in clusters in contiguous villages. There is a provision for intensive training for skill building, refresher training, backward-forward linkages, handholding and escort support for credit linkage. This also encompasses the complete value chain and offers end-to-end solutions to the SHG members. 237 LEDPs involving 25,577 members were conducted during 2019-20. Cumulatively, 89,127 SHG members have been supported through 783 LEDPs as on 31 March 2020.

1.33 With a view to strengthen the MF sector through supply of research inputs that facilitates policy initiatives and improvement in design & delivery systems that provide poor with sustainable access to quality financial services, NABARD had set up The Centre for Microfinance Research within Bankers Institute of Rural development (BIRD) on 01 January 2008 renamed as Centre for Research on Financial Inclusion and Microfinance (CRFIM) on October 2016. The institute brought out a volume of the Half-yearly Journal "THE MICROFINANCE REVIEW" during the year. A roundtable on "Microfinance Institutional Ratings" was organized by Centre in collaboration with Microfinance Institutions Network (MFIN) on 29 July 2019. Microfinance experts of NABARD, banks, wholesale lenders, rating agencies and MFIs had participated the workshop. A consultative Meet, Chintan Baithak – 2 on "Future of Microfinance in India – Challenges and Strategies" was also conducted by the Centre at BIRD, Lucknow on 16 December 2019. Experts from NABARD, Banks, MFIs, SFBs, NGOs and FPO representatives have participated in the workshop. The 5th National Seminar on Financial Inclusion and Microfinance was organized by the Centre on 02 March 2020 at BIRD, Lucknow. The Seminar was attended by Government Institutions, RBI, NABARD, Banks, SFBs, NRLM/SRLMs, FinTech Service Providers, and National Level NGOs.

1.34 The Centre has implemented the NABARD Student Internship Scheme (SIS – 2019-20). "Evaluation of Implementation of PMFBY for loanee and non-loanee farmers by various banks/agencies" for which a Report by the Intern was submitted to NABARD.

1.35 Other activities undertaken by the Centre included a Trend Report on Financial Inclusion. The Centre also conducted a Webinar on the findings of the study "Joint Liability Groups: Innovations and Impact". 31 participants from banks, NGOs, FPOs and development practitioners involved in promoting rural livelihood through micro loans have attended the webinar. NABARD-APRACA Centre of Excellence (ACE) has been set-up at BIRD, Lucknow to complement APRACA in enhancing (i) linkage banking (ii) Research, Forums, Trainings, Exposure visits, Consulting service, Technical support, Innovations (iii) Develop core training specialists and technical experts (iv) Design and conduct international programmes (v) Bring out appropriate publications and (vi) Enhance regional coordination among APRACA nations.

WAY FORWARD

1.36 Banks and Financial Institutions have to partner with Fin Tech Companies actively to achieve the last mile connectivity. Making technology driven financial services available in the remotest areas in a cost effective manner will ensure demand and supply balance. The SHGs could be involved in delivery of financial services on the BC model. There is a need for adoption and upgradation of centralised / uniform technology by all small FIs and MFIs and leveraging the same to remote and unreached areas at an affordable cost. In India, FinTech has the potential to provide workable solutions to the problems faced by the traditional financial institutions such as low penetration, scarce credit history and cash driven transaction economy. If collaborative participation from all the stakeholders, viz., regulators, market players and investors can be harnessed, Indian banking and financial services sector could be changed dramatically.

1.37 Redefining the priority states and strategy for such states with particular emphasis on Central, Eastern India and North-Eastern regions by mapping of potential could be one of the strategizing interventions for the under-served states of Self Help Group Bank Linkage Programme. Mapping those pockets where there is virtually no intervention or presence of any Govt. Agency or Self Help Promoting institutions (SHPI) and putting in concerted efforts is important.

1.38 Lack of good SHPIs is one of the reasons for slow growth of SHG BLP in underserved regions. There is need to identify a large nodal NGO with experienced and trained staff for training smaller local NGOs, who lack proper orientation for SHG promotion.

1.39 Conduct of Impact Assessment Studies and Action Research needs to be undertaken on issues confronting the microfinance sector especially reasons for dormancy, disintegration of SHGs, apathy of formal credit agencies and convergence of the SHG–BLP with the development programmes of government / development agencies / philanthropic institutions, prevalence of high NPAs in certain states documenting the best practices followed by NRLM, study on commercial aspects of SHG BLP in the bank branches, etc. NABARD has been supporting institutes for such studies for identifying impediments in the progress of the movement and making policy refinements to give a fillip to the programme.

1.40 In attaining all the Sustainable Development Goals, microfinance institutions including SHGs can play a major role in generating funds for development and can give community orientation to the interventions. If we can build strong network of ground level institutions of people, it can form a soft infrastructure that would support effective implementation of successive developmental interventions and lead to inclusive growth.

1.41 The constraints in rural enterprise development are primarily low or negligible income, lack of skill and mentoring services and poor access to markets. The strategy would be to find ways to bridge the skill, knowledge and resource gap and at the same time maximize on the existing strengths and facilitate quality certification, packaging technology for greater shelf-life, marketing platform, market linkages, which is the critical gap in scaling up sustainable livelihoods for the poor. Resource Agencies which provide cutting edge design, facilitate product diversification, ensure quality certification, packaging technology for greater shelf-life, marketing platform, retail space and credit needs can handhold SHG members to become entrepreneurs by setting up of micro enterprises. NABARD has been supporting need based skill development programmes under Micro Enterprise Development Programme, which bridges skill deficits and promotes entrepreneurial talents of the members to set up micro enterprises for matured SHGs through appropriate resource NGOs and other support organisations.

1.42 NABARD's Livelihood Entrepreneurship Development Programme for tapping of livelihood opportunities will be used as a major livelihood promotion programme in coming years to ensure more thrust is given to livelihood interventions. Convergence of SHG BLP with FI initiatives of GoI and RBI and other Govt. programmes, group insurance products, enhanced quantum of loans and fresh financing to members would further boost momentum of the programme.

1.43 Capacity building and sensitization of stake holders, especially bankers, through specific programmes for Zonal Managers/Regional Managers of Commercial Banks, RRBs and DCCBs needs to be continued for strengthening and deepening the SHG movement. Case Studies and appropriate field interfaces are needed to ensure the desired impact of the training programmes. Organizing Award Ceremonies in all States for recognizing good performance of Bankers will further energise the SHG BLP movement. Technology will have to be leveraged for developing training tools like an e-learning portal / App with course contents suitable for Bank Managers, especially the new entrants, with the active involvement of Banks / NABARD's training institutes.

1.44 The potential SHGs and JLGs may be encouraged to graduate as members of Producers' Organisations of Farm and Non-farm activities.

1.45 Promotion of Business Model for JLGs by RRBs and Banks through BC network is also another intervention which would give momentum to the Joint Liability Group Bank Linkage Programme.

1.46 Alternate delivery channels and support mechanisms are to be encouraged to provide the SHG members timely banking services at a reasonable cost. The NABFINS model by NABARD has shown how an MFI can provide adequate and timely credit to SHGs & JLGs at a reasonable rate of interest, in a transparent manner without using coercive measures of recovery and still continue to be a profitable entity. It has a client base of 9.57 lakh in 16 states. Efforts should be made to expand its outreach.

1.47 Financial literacy and financial inclusion are two aspects of financial stability in a country. Financial literacy is recognized as an important component for sustained financial inclusion process. It is the need of the hour for a rapidly developing nation like India since it assures inclusive growth and sustainable prosperity. Financial literacy through the use of technology by digitalisation can be accelerated via three media-computer, mobile, and internet. NGOs and SHG leaders should be the torch bearers in dissemination of financial literacy among the vast segments of excluded population including SHGs, small and marginal farmers, etc.

1.48 Financial inclusion (FI) through the JAM trinity (Jan Dhan Yojana, Aadhaar, Mobile) is seen as an important tool for financial inclusion. Convergence of the SHG BLP with the FI initiatives of the Government and RBI needs to be ensured. The Credit history of all SHG members needs to be captured by linking the E Shakti with CIC this will ensure credit discipline and facilitate Banks for higher off take of credit to SHGs

1.49 Expansion of coverage of NABARD's EShakti in the country would increase credit linkage as well as credit deepening for the deserving SHGs in rural areas as also help banks in building up their SHG business portfolio. The 'one-click availability of social and financial related information" of crores of rural families across India on a single platform will have tremendous significance for various stake holders. Leveraging the E Shakti database for making available financial and social security schemes of GoI to rural poor, owing to its pan rural India reach and impact in the E Shakti districts is a positive step in the financial inclusion process. Increased confidence of banks in the project could result in their financial participation in the project and help reduce the gap of savings and credit linked SHGs .Linking of EShakti to the CBS of various banks using online or offline mechanism would help in better offtake of credit linkage and provide invaluable data of digitized SHGs and help all the stakeholders in SHG BLP ecosystem.

1.50 There should be synergy between Financial Institutions and NRLM in effectively using the large SHG customer base to reach out to the poor and vulnerable sections and also for promoting Bank Sakhis as business correspondent agents of the bank.

1.51 Only with collaborative efforts by all the microfinance sector players, from the central government to NABARD to private sector to the block level civil society organizations, the un-served and underserved can be brought at par with their urban counterparts.

PAN INDIA COVID-19 INITIATIVES TAKEN BY SHGS

COVID-19 has adversely affected the lives of everyone in its wake, but more so the poor and quite severely too. There was loss of livelihoods, lack of food, shelter, medicines and no access to other basic needs. During these difficult times, several service oriented individuals, SHGs, Voluntary Agencies and NGOs came forward and extended their help in association with the Govt. Deptts., NABARD ROs, DDMs and others.

SHGs and their members across the country rose to the occasion and played a major role in coping with the situation and took the responsibility of providing basic necessities to the poor and vulnerable sections of society. A few of the initiatives undertaken in various villages, districts and states for combating COVID-19 and adapting to the changing environment are enumerated below :

1. Mask Making and Distribution:

Hundreds of SHGs were involved in making and supplying lakhs of masks within a very short span of time. One SHG of Valsad district had prepared 1.00 lakh masks and DAY-NRLM, Mehsana prepared a record 1.78 lakh masks during the first lock down with the help of the SHGs. Samavesh Sai Kripa SHG comprising 8 members of specially /differently abled men/ women worked round the clock to achieve the task of stitching 8,ooo masks.

2. Distribution of Food Kits:

Food kits containing essential items like rice, dal, potato, onion, oil, soaps etc. were distributed to the needy. In Telangana, SIRD agency involved in NABARD supported FPO project, TDF, MEDP/LEDP etc., was selected by the district administration to distribute vegetables in Wanaparthy town. They have engaged 03 vans and each van covered around 200 families per day. The SHG members are operating the vans and sales of around ₹10000/- per van is reported for vegetables and fruits. One agency by the name Rural Development Society, distributed masks and food to stranded labourers through their SHG members.

3. Community Kitchens:

Community kitchens were set up for hundreds of hungry people. Society for Rural & Youth Educational Advancement (SRYEA) with volunteers of 15 SHG members from 3 SHGs were involved in ‘Food on Wheels’ providing cooked food to hungry and destitute people. Jai Ambe Mission Mangalam, Krish Sakhi Mandal, Jai Goga Sakhi Mandal SHGs of Mehsana district prepared food packets of 250 gram each of dry snacks by working in day-nights on rotation basis. They distributed 200 packets daily to the poor people. For this entire work, these SHGs have not collected any money from anybody. Sowmya & Niranthara, both 20

year old SHGs used ₹105750/- from their own savings and internal loan dividend amount to contribute ration kits to 130 SHG / Non SHG members.

4. Awareness Camps:

Many agencies have conducted awareness camps in village communities, public places and gatherings on hygiene and social distancing. These camps helped the poor people immensely in taking the required precautions.

5. Banking Services:

Andaman and Nicobar StCB rose to the occasion by providing essential banking services to the elderly, Physically Handicapped etc. through door to door delivery of banking services. The staff delivered pension to 16,560 pensioners across 45 branches. Seven BCs covered 24 villages, for 4706 transactions involving an amount of ₹61.00 lakh for both deposits and withdrawals. This was a great help for the old people, patients, divyangs, uneducated etc.

6. Other Initiatives:

i. AMAAPCO provided dry cattle feed of 55 tonnes in Andaman and Nicobar islands during two lockdowns. Voice of Compassion to India (VOCI), an NGO with the help of SHG members prepared 600 litres of phenyl, 400 cloth bags, 250 bottles of health drinks and distributed amongst COVID Warriors.

ii. In Telangana, HIV infected people were severely affected due to the lockdown as they could not access ART medicine. WORD staff members supported the District AIDS Prevention and Control Unit and distributed ART medicine to more than 750 HIV infected people in the remote villages of Kamareddy and Nizamabad districts.

2. ESHAKTI – THE YEAR THAT WAS AND THE FUTURE AHEAD

Self Help Group Bank Linkage programme (SHG-BLP) is a landmark model initiated by the NABARD in 1992 to deliver affordable door-step banking services. Started as a bank outreach programme, SHG-BLP transcended itself into a holistic programme for building financial, social, economic, and of late, technological capital in rural India.

With the backdrop of GoI's initiative of a Digital India, NABARD conceptualized Project EShakti, to bridge the digital divide in the SHG-BLP space and technologically catapult the SHGs into banking forefront through Project EShakti on digitisation of SHG records. Project EShakti has helped to translate the early mover advantage to its digitised SHGs/ SHG Members across the nation, because it can be safely stated that "Going digital" is the only way of life in the 21st Century.

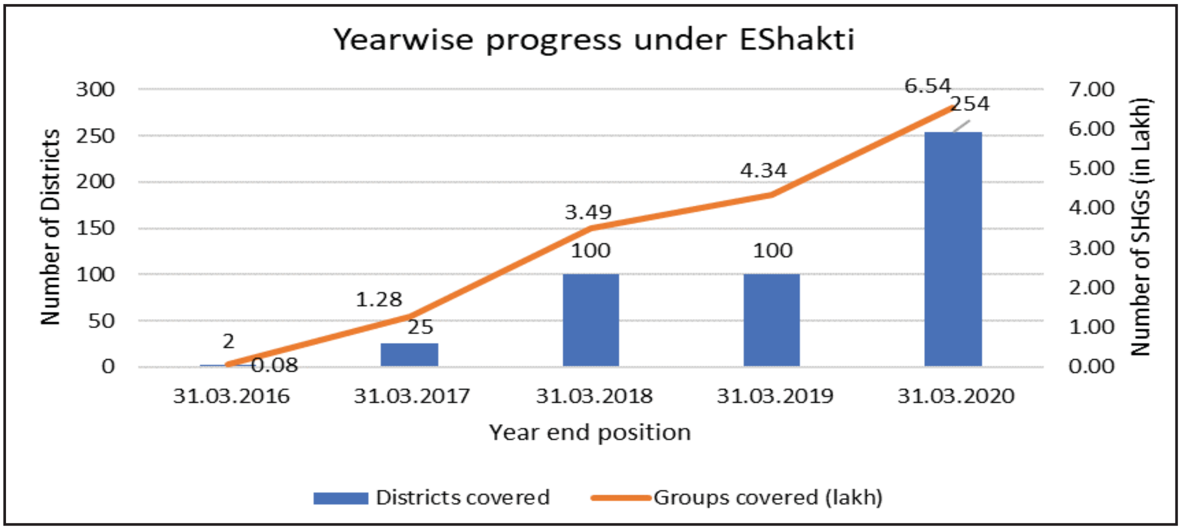
The project was rolled out in phases beginning with the pilot phase in 2 districts of Dhule in Maharashtra and Ramgarh in Jharkhand in 2015. It was expanded to cover 23 more districts in 2016. Taking into consideration the encouraging results and interest generated amongst all the stakeholders from the first two phases, the pilot project was further expanded to 75 more districts in 2017 and to additional 150 more districts in 2019. As of now the project covers 254 districts in 26 States and 02 Union Territories.

Drafted by Dr. Nandini Ghosh, DGM & Smt Riktika M Mukherjee, Manager

The project captures information on the existing SHGs; bank wise, branch wise and block wise in the selected districts. The social, demographic and financial profiles of members as well as the SHGs, together with member identification details like Voter ID, etc. are captured and uploaded on to a dedicated website https://eshakti.nabard.org. It also captures all financial transactions taking place within the group and with banks on a real time basis. The database thus generates and provides reliable and up to date information on SHGs and its members to Banks and other stakeholders, helping them in taking appropriate decisions on credit and policy quickly.

Digitisation addresses issues like quality of book keeping, multiple membership of SHG members, patchy credit histories and provides grading report of any SHG based on its financial and non-financial records, at the doorstep of all stakeholders. The project which operates through one portal viz. https://eshakti.nabard.org, and two mobile Apps (EShakti App and EShakti Tracker App), makes the SHGs and their members more accessible to bank credit and also empower them by giving access to their own bank accounts and other details through their mobiles. It is rightly called 'EShakti" that is empowering through digital mode.

2.2 A GLIMPSE OF JOURNEY SO FAR



2.3 PROJECT ESHAKTI– STATUS AS ON 31 MARCH 2020

As on 31 March 2020, EShakti project has onboarded 6.54 lakh SHGs involving 71.54 lakh rural households across the length and breadth of the country. A significant indicator of the success of project EShakti in catering to the credit needs of the rural poor, is the increase in the bank credit linkage of the SHGs from 2.14 lakh (33%) to 3.19 lakh (49%).

The Project has strengthened the Financial Inclusion Programme of the Govt. by incorporating various social security schemes of Govt. like PMJDY, PMSBY, PMJJBY, APY etc. The data in EShakti was used to enroll SHG members in these schemes. This resulted in opening/ enrolment of 4.00 lakh new accounts. The FI drive also resulted in capturing of data of 10.05 lakh new as well as pre-existing accounts.

Towards further leveraging EShakti Data, a Credit Intensification drive was initiated (from January 2020 to March 2020), to improve coordination with banks, visibility of the EShakti project and enhance credit linkage in EShakti implementing districts. As an outcome of it, loans amounting to Rs.248.75 cr was sanctioned out of which Rs.199.70 cr was disbursed to 13,126 SHGs till 31 March 2020.

2.4 WAY FORWARD

Under EShakti, the ultimate objective is to digitize all active SHGs in the country in an incremental manner. As the EShakti project achieves scale and momentum, updation of data on real time basis and utilizing the data for credit enhancing become the most important aspects for the success of the project.

Forging tie-ups and collaboration with banks, NRLM/ SRLMs and other organisations working with SHGs, are underway to help avoiding duplication of efforts, and promote conservation of resources. EShakti portal is currently hosting demographic, financial, social and livelihood data of nearly 6.54 lakh SHGs and efforts are taken to make the policy makers, State Government departments, banks, e-commerce companies, health care companies, etc. to leverage this repository of big data to benefit the rural populace.

The future strategy will therefore be focused on infusion of technological innovations to establish EShakti platform as an output oriented, user-friendly and robust "One Stop Solution" on Digitisation of SHGs.

COVID-19 PANDEMIC AND ESHAKTI-SHG TALES OF COURAGE AND COMPASSION

*"Temper us in fire, and we grow stronger.
When we suffer, we survive."*

Our EShakti SHG members appear to have exemplified the above quotation. Though the spread of the COVID-19 virus severely impacted the livelihood of SHG members, this pandemic and the related challenges inspired many a tales of courage and compassion from every corner of our country. SHG members found a greater meaning and purpose of life during the testing times by not only pursuing economic activities of their own but also by helping our society by providing food, grocery, clothes, necessary items and COVID 19 preventive kits. As on date, lakhs of Handmade Masks, PPE Kits, Litres of Disinfectant and Sanitisers, Handwash, Food-items, Grocery kits and scores of other useful items are being produced to combat the raging COVID-19 crisis.

All NABARD Regional Offices implementing EShakti project, are playing a leading Role to facilitate the above SHG efforts in partnership with Implementing Agencies, State/ District Administrations, State Rural Livelihood Missions, Channel Partners etc. under the Anti COVID-19 EShakti SHG Drive.

In its endeavour to leverage EShakti platform that hosts financial, social, demographic and livelihood data of lakhs of EShakti SHGs across the country, NABARD sent a series of "COVID-19, Stay Safe" Health Advisory SMS, to all its members including the Animators working in the field. Around 40 lakh such SMS in English and vernacular languages have helped disseminate awareness on preventing/ curbing COVID-19 spread in the country.

The Mega Anti COVID-19 Drive run by SHG members across the length and breadth of our country, has scripted a Golden Chapter in the History of Mankind.

3. SHG BASED LIVELIHOOD INTERVENTIONS OF NABARD

There is nothing so degrading as the constant anxiety about one's means of livelihood.

- W. Somerset Maugham

Realising the hard truth that millions of poor people do not have access to and means for earning livelihoods and that the most important role of microfinance is poverty alleviation through creation of livelihoods, NABARD, the torchbearer of microfinance and financial inclusion, has been leading from the forefront in skill and capacity building of the poor and creating an enabling environment for promotion of livelihoods.

NABARD has pioneered the Self Help Group-Bank Linkage Programme, the world's largest microfinance initiative, which is savings led, women centric and self-managed, popularly known as SHG- BLP. With a modest beginning of 500 SHGs in 1992, the programme has now reached a staggering one crore SHGs covering more than 12 crore poor households across the country as on 31 March 2020.

However, despite the success of the SHG-BLP which enabled millions of SHG members to have access to savings and credit, their graduation to the next level of livelihood opportunities was not happening. While looking into the reasons, it was observed that the SHG members not only lacked vocational skills but were also ill equipped to deal with the whole gamut of issues involved in pursuing meaningful livelihoods. Also that, enabling them for taking up income generating activities involved intensive training and hand holding on various aspects like potential, demand, market tie ups, finance, management, entrepreneurship etc. to manage their enterprises.

NABARD has been continuously making efforts to address these issues and support SHG members in setting up and managing successful enterprises for livelihood, through implementation of two skill development and capacity building programmes, viz. MEDP and LEDP.

MICRO ENTERPRISE DEVELOPMENT PROGRAMME (MEDP)

Launched in 2006, MEDP is in implementation for more than a decade now. The main objective of the programme is to enhance the capacities of participants through appropriate skill up-gradation in existing or new livelihood activities in farm or non-farm activities and enrich knowledge of participants on enterprise management, business dynamics and rural markets. The programme has found favour with many and as on 31 March 2020, more than 5 lakh SHG members were trained through around 17,700 MEDPs.

However, Impact Evaluation studies conducted to assess the programme revealed limited impact of skill upgradation training alone on livelihood creation of SHG members. Further, it was observed that, to

Drafted by Smt Didla Sumana, AGM

attain optimum benefit out of MEDPs, these programmes have to be organized in clusters with provision for refresher training, backward & forward linkages and handholding & escort supports.

LIVELIHOOD AND ENTERPRISE DEVELOPMENT PROGRAMME (LEDP)

A felt need for new approach, which ensures end to end solutions with participative and mutual support through collectivization in cluster mode and with strong focus on outcomes, led to the launch of Livelihood and Enterprise Development Programme. LEDP was initiated on a pilot basis in December 2015 with a view to create sustainable livelihoods among SHG members and to obtain optimum benefit from skill upgradation.

LEDP is a holistic intervention mechanism conceived to take care of the entire ecosystem required for livelihood promotion. It envisaged conduct of livelihood promotion in both farm and off-farm activities under project mode in clusters in contiguous villages, with a provision for intensive training for skill building, refresher training, backward-forward linkages, handholding and escort support for credit linkage. This also encompasses the complete value chain and offers end-to-end solutions to the SHG members.

SALIENT FEATURES

The broad objectives are to identify suitable livelihood activities through participatory approach, to enhance the capacities of SHG members through identifying the skill gaps and appropriate skill upgradation, to enhance the income levels of SHG members by improving/ acquiring of skills to take up livelihood activities with credit support of banks, to develop a shared vision of change, enhance capacity of SHG members for managing their enterprise, business development and marketing, to provide mentoring services and handholding support for ensuring that trained SHG members establish their livelihood ventures successfully.

LEDP projects are implemented through SHPIs (PIAs), who have had close association with the SHGs and good relations with communities in the identified project area. The Programme Implementation Agency (PIA) in association with or under the guidance of Resource Agency will conduct mapping in the project area of the existing skills, required skills, raw material, local consumption, marketing avenues and extension support to identify suitable livelihood activities, which can be undertaken by SHG members with suitable intervention. Need assessment will be finalized through interaction with SHG members/ their family members on RRA (Rapid Rural Appraisal) basis. Local bank branches/ Lead Bank officers will be taken on board.

All SHGs fulfilling the criterion of "panchasutra" and credit linked for at least six months are eligible for the LEDP. The project will cover minimum of 15 to 30 SHGs in cluster of contiguous villages, where from, 5 to 6 SHG members from each SHG will be selected. SHG members showing promise to take up the livelihood activity are only carefully identified and selected, including persons among them willing and capable to start demonstration unit, who will be groomed to function as Community Resource Persons. The skill training is provided in batches of 25- 30 members.

The project period will generally be one year after the last set of trainees are provided training. The project cost is kept flexible subject to the cost broadly not exceeding ₹4,300/-per person in respect of activities in Agriculture and Allied sector and ₹5,600/-per person in respect of NFS/ handicraft activities. The initial intensive training may be followed up with refresher training to resolve the implementation problems/ issues being faced by SHG members. Along with the training, a demonstration unit of the livelihood activity in Agriculture & Allied sector to be used for hands on training/ learning to the identified SHG members, may be considered.

In the post training period, the trainees will be provided mentoring and other escort and support services by the SHPIs or through identified Resource Agencies like NGOs, Corporates, KVKs, Agriculture Universities, Marketing Agencies etc. for getting higher credit doses either through existing SHG or through individual / JLG mode, guidance and credit counselling, sourcing of technical knowhow and raw material, packaging guidance, design and marketing tie-up.

Within a short span of just over 4 years of its existence, the Livelihood and Enterprise Development Programme has proved to be an efficient and effective intervention in livelihood promotion of thousands of poor SHG members. As on 31 March 2020, more than 89,000 SHG members have been supported through around 780 LEDPs. A few of the success stories that have brought smiles and light into the gloomy lives of several women through these livelihood initiatives are presented in the ensuing pages.

We must not rest until right livelihood is within reach of every human being upon this earth. We all have a role to play in achieving this goal.

~Agnivesh

4. PROGRESS OF SHG-BLP

4.1 The SHG Bank Linkage Programme (SHG-BLP), launched in 1992 as a pilot project has grown in reach and fold to become the worlds' largest community based micro finance programme covering nearly 12.40 crore households as on 31 March 2020, providing social, economic and financial empowerment to the rural poor especially the women. Microfinance initiatives have played a major role in making credit accessible to the unbanked rural women thereby bringing them within the SHG-BLP fold on a continuous basis and contributing to a reduction in the gender gap in access to financial services. As per the Global Findex Database 2017 of World Bank, India's gender gap in financial inclusion reduced by 14 percentage points in three years from 20% in 2014 to 6% in 2017. This gender gap may get further reduced as there was a net addition of 2.3 lakh savings linked SHGs during 2019-20. A sizeable number of SHGs have been added during the year in states like Andhra Pradesh, Assam, Bihar, Haryana, Jharkhand, Jammu and Kashmir, Kerala, MP, Maharashtra, Nagaland, Odisha, Uttarakhand, etc. This indicates the need for connecting the poor households in poverty dominated states with the development process through SHG-BLP. The number of new SHGs added every year has been declining in some states mainly for reasons such as saturation in potential areas for formation of new SHGs, data sanitization by banks, and restricted operations of Self Help Promoting Institutions (SHPIs) to form SHGs after introduction of NRLM/SRLM. NRLM, taking the lead in formation and capacity building of SHGs in rural India, accounted for 57.89 lakh SHGs, a jump of 3.75 per cent during the year with a net addition of 2.09 lakh SHGs under its fold. The domain of SHGs consists of 86.2 per cent women groups and is the mainstay programme for empowerment of the poor rural women in the country. Table 4.1 gives an account of savings, credit disbursement and credit outstanding of total SHGs as well as under NRLM and NULM during last three years i.e. 2017-18 to 2019-20. The rise of the annual growth rate in bank loan outstanding as well as its rise in average loan outstanding per SHG is also indicated. In fact, rising NPAs in SHG loans, from a 2.1 per cent in 2008 to 7.4 per cent in 2015 was a concern in the sector. Thereafter, the NPAs started declining from 7.4 per cent (in 2015-16) to 5.19 per cent in 2018-19 which further declined to 4.92 per cent in 2019-20.

4.2 SHG Bank Linkage programme is an effective intervention in economic upliftment and financial inclusion for those at the bottom of the pyramid. A proven platform initially conceived for increasing the outreach of banking services among the poor has since graduated to a programme for promotion of livelihoods and poverty alleviation. All major parameters viz. the number of SHGs with savings bank accounts, amount of credit disbursed during the year, the bank loans outstanding as well as the quantum of savings outstanding has shown positive

Drafted by Dr. Ashutosh Kumar, DGM-DEAR & Shri Saad Bin Afroz, AM-DEAR growth during the past three years (Figure 4.1). The growth in number of SHGs availing bank loan and amount of institutional credit disbursed to SHGs was 16.6 per cent and 33.2 per cent respectively during 2019-20.

4.3 Progress of Saving Linked SHGs with Banks (2017-18 to 2018-19)

The banks have reported an addition of 2.3 lakh savings linked SHGs at all India level registering a marginal growth of 2.3 per cent during the year 2019-20 compared to 14.5 in 2018-19. Among the different regions, Central Region registered the highest growth of 6.8 per cent followed by North Eastern Region (6.4 per cent), Western Region (6.1 per cent), Eastern Region (5.9 per cent) and North Region (5.2 per cent). Southern Region recorded a decline of 3.8 per cent. Among the states/UTs, Chandigarh, Haryana, Jammu & Kashmir, Himachal Pradesh, Nagaland, Arunachal Pradesh, Jharkhand, Madhya Pradesh, Uttarakhand, Maharashtra and Andhra Pradesh registered a good growth of SHGs while states/UTs like Pudducherry, Tamil Nadu, Goa, Gujarat, Karnataka, Manipur and New Delhi registered a negative growth of SHGs leading to decline in absolute number of SHGs in such states for the year 2019-20. The decline in savings accounts of SHGs is mainly due to data sanitization, closure of dormant accounts, reporting errors, and change in the SHG Bank Linkage model for example SHGs shifting to linkage through Banking Correspondents.

As regards, the regional share of SHGs during the year 2019-20, Southern Region accounted for major share with 36 per cent, followed by Eastern Region (27.4 per cent), Western Region (14.4 per cent), Central Region (11.1 per cent) and Northern Region (5.6 per cent). The North Eastern Region had the lowest share of 5.4 % of total SHGs in the country. In terms of number of SHGs, the share of Southern Region receded to 36% in 2019-20 from almost 48.3% in 2014-15 registering a decline by more than 12 percentage points. The state-wise details of number of SHGs are given in Statement IIA.

4.4 Savings Outstanding with SHGs

A robust savings outstanding of an SHG is its strength as it can meet exigencies of its members through internal lending as well as can source a bank loan for a suitable investment plan. The savings outstanding of SHGs as on 31 March 2020 reached an all-time high of ₹26,152 crore, registering a growth of 12.1 per cent over the year 2018-19. Further, the average savings per SHG also increased by 9.6 per cent during 2019-20 from ₹23,291 in the year 2018-19 to ₹25,531 indicating an improvement by almost 6 percentage points. The average savings was highest in Southern Region (₹39,848) while it was least in North Eastern Region (₹8,644) and Northern Region (₹10,318) (Fig 4.3). Southern states have a sizeable number of matured SHGs that contribute higher amount of monthly savings leading to higher average savings rate, whereas in North Eastern States and other priority states, the average savings are low. States that have added more number of new SHGs during the year have recorded decline in average savings during the year. The highest increase in average saving was observed in Central Region (20.3 per cent), followed by Southern Region (18.5 per cent) and North Eastern Region (12 per cent). The Northern and Western Region have observed a decline in average savings per SHG by 9.4 and 7.3 percent respectively. The state-wise savings outstanding position is given in Statement IIA.

4.5 Credit Disbursement by Banks

During 2019-20, 30.7% of the total SHGs, the highest number of SHGs ever, were provided with institutional credit in a single year. On the whole, Banks disbursed ₹77,659 crore loans to 31.46 Lakh SHGs during the year, as compared to ₹58317crore loans to 26.98 lakh SHGs during 2018-19. As regards regional performance with respect to credit linkage, Southern Region outperformed all regions with 44.4 per cent of credit linked SHGs followed by Eastern (40 per cent), Western (11.8 per cent), and Northern Region (10.9 per cent) and Central region (9.8 per cent) (Figure 4.4.). The North eastern region continued to record the lowest credit linkage of 6.8 per cent of the total SHGs. At the all India level, the credit linkage was 30.7 per cent in 2019-20 as against 26.9 per cent in 2018-19 thereby recording an increase of 3.8 percentage points. One in every three SHGs in Southern Region and Eastern Region have availed bank loan during the year whereas in other regions the credit linkage of SHGs was much less ranging between 6.8 per cent in NE region to 11.8 per cent in Western Region. This is indicative of low level of repeat finance in the states in Northern, North Eastern, Central and Western Regions calling for sensitization of bankers once again towards SHG Bank linkage programme especially by their Corporate and Local Controlling Offices.

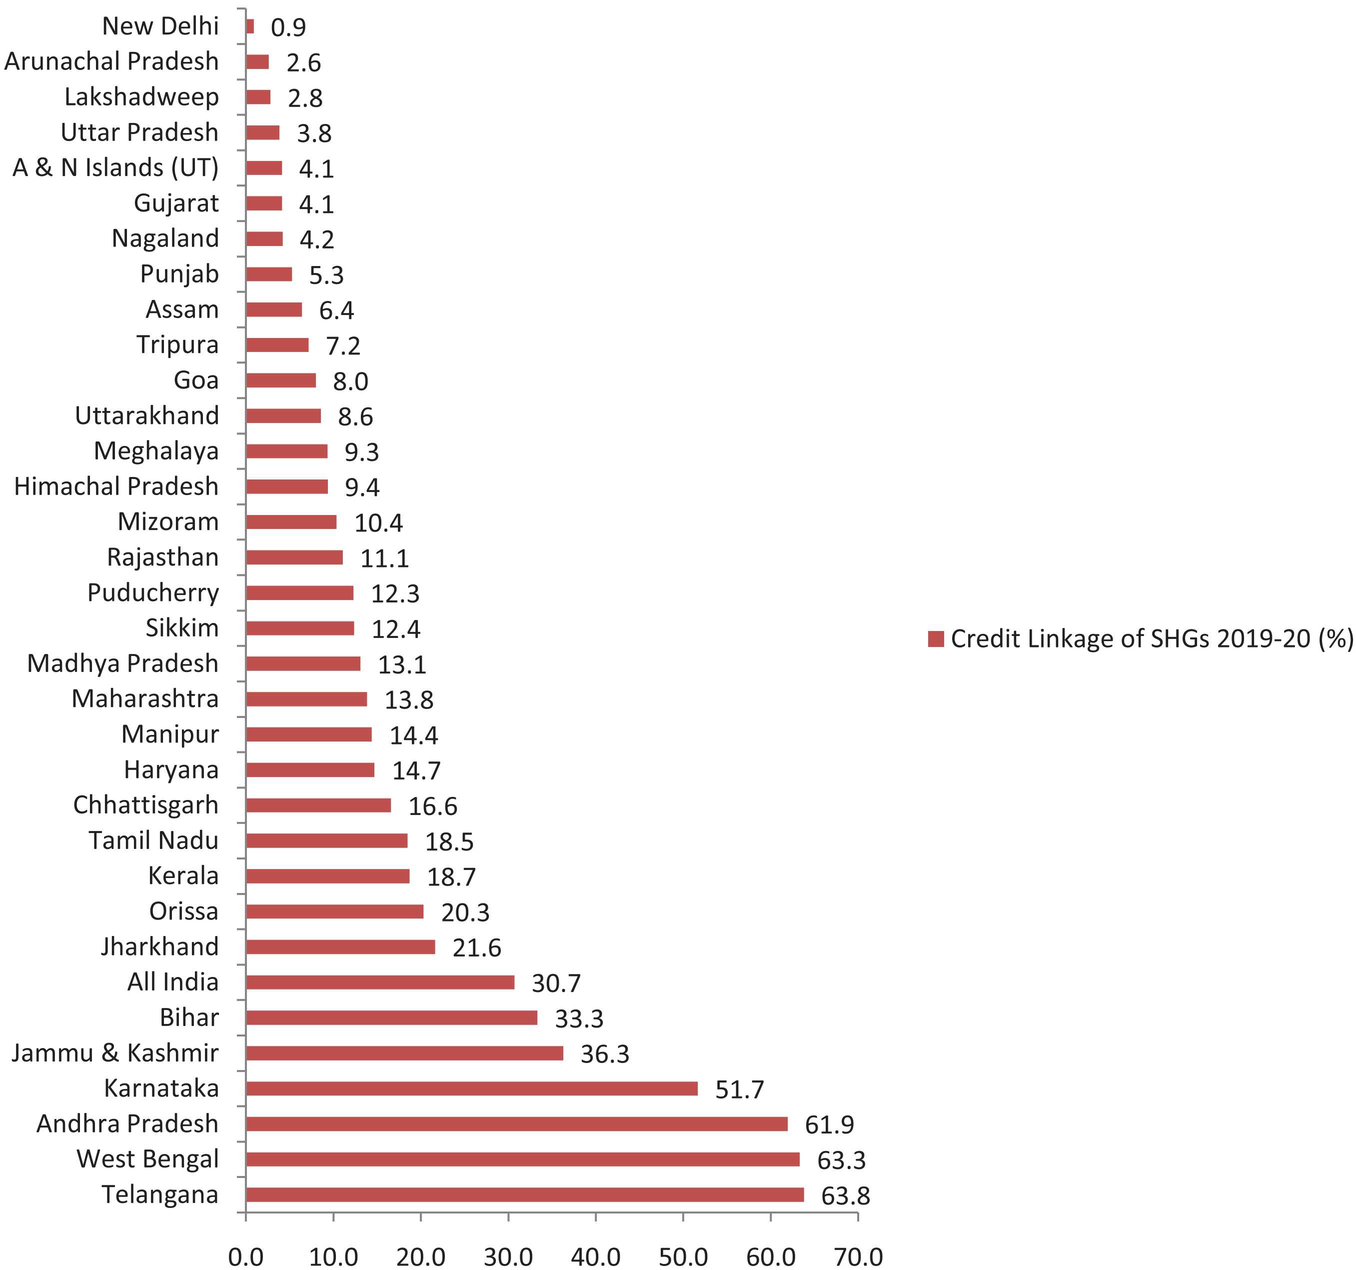
2017-18 2018-19 2019-20

As far as states are concerned, credit linkage of SHGs during the year was high in southern states like Telangana, Andhra Pradesh, Karnataka and Tamil Nadu (Fig 4.5). Some of the states like Jammu & Kashmir, West Bengal and Bihar also recorded high credit linkage during the year. Low credit linkage in North Eastern states and some priority states like Uttar Pradesh, Gujarat, Assam, Rajasthan, Madhya Pradesh, Uttarakhand remains a concern. In states like Kerala, Odisha, Karnataka etc. the number of SHGs provided with bank loan during 2019-20 was lesser than the previous year. On the other hand, more number of SHGs were provided bank loan during 2019-20 as compared to 2018-19 in states like West Bengal, Andhra Pradesh, Madhya Pradesh, Jharkhand, Maharashtra, Haryana, North Eastern States etc.

During 2019-20, about ₹77,659 crore of bank loans were disbursed as against ₹58,318 crore in 2018-19 registering a growth of 33.2%. All regions witnessed a rise in loan disbursement, auguring well for the SHG movement. The dominance of Southern Region in disbursement of bank loans to SHGs continued during 2019-20 also. Southern Region accounted for more than half (52.01 per cent) of the total number of SHGs availing credit during 2019-20 across the country and almost three-fourths (70.62 per cent) of the total credit disbursed to SHGs.

The average loan disbursement per SHG during 2019-20 was higher at ₹2.47 lakh as against the average SHG loan of ₹2.16 lakh during 2018-19 registering a growth of 14.35 per cent. Southern Region however continued to have the distinction of having the highest per SHG average credit disbursement of ₹3.35 lakh with a rise of 15 per cent over previous year's disbursement of ₹2.91 lakh per SHG (Table 4.3 & Fig 4.6). All regions recorded an increase in loan per SHG. North Eastern Region (43 per cent),

Fig 4.5: State wise Credit Linkage of SHGs 2019-20 (%)



Eastern Region (20.69 per cent), Northern Regions (20.15 per cent), Central region (10.67 per cent) and Western region (13.73 per cent) also recorded a rise in the average credit disbursement during 2019-20 as compared to the previous year. The number of SHGs availing bank loan, total amount of credit disbursed by banks and the average credit disbursement to SHGs in different Regions during past three years are shown in Table 4.3. The state-wise position of bank loans disbursed to SHGs during 2019-20 is given in Statement II B.

Among the major states, the average credit disbursement per SHG increased in Andhra Pradesh, Kerala, Tamil Nadu, Goa, Gujarat, Assam and Rajasthan whereas it declined in Punjab, Nagaland, Andaman and Nicobar Islands and Madhya Pradesh. The state-wise and region-wise average credit disbursement per SHG during 2018-19 and 2019-20 is presented in Figure 4.7.

4.6 Credit Outstanding

The year 2019-20 also saw a marked improvement in the number of SHGs having loan amount outstanding registering a growth of 11.8 percent as against 1.1 percent in 2018-19. As of 31 March 2020, 56.77 lakh SHGs (55.4% of total SHGs) were having credit outstanding of ₹1,08,075 crore as against 50.77 lakh SHGs (50.7 per cent) with credit outstanding of ₹87,098 crore during 2018-19,

Fig 4.6 Region wise Avg Loan disbursed (₹)- 2017-18 to 2019-20

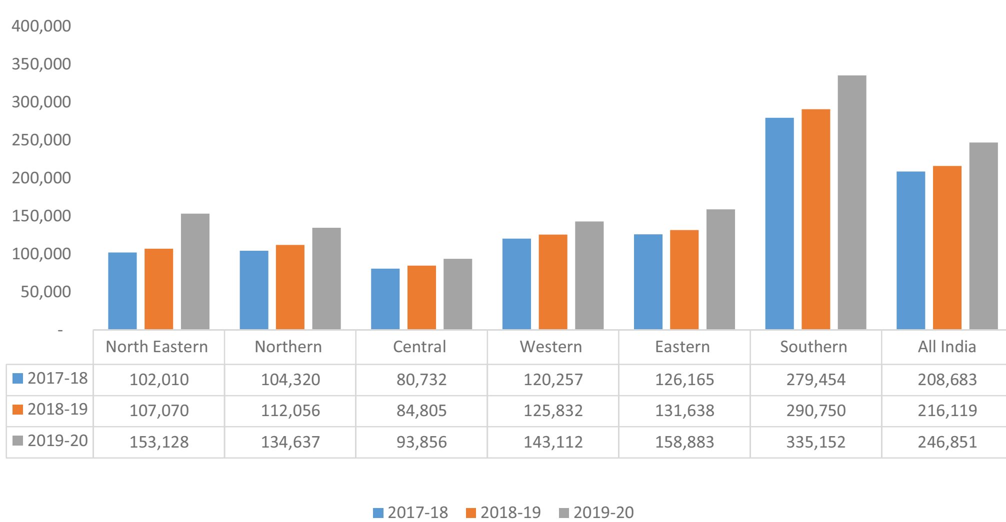

Fig 4.7: State-wise Average Loan per SHG

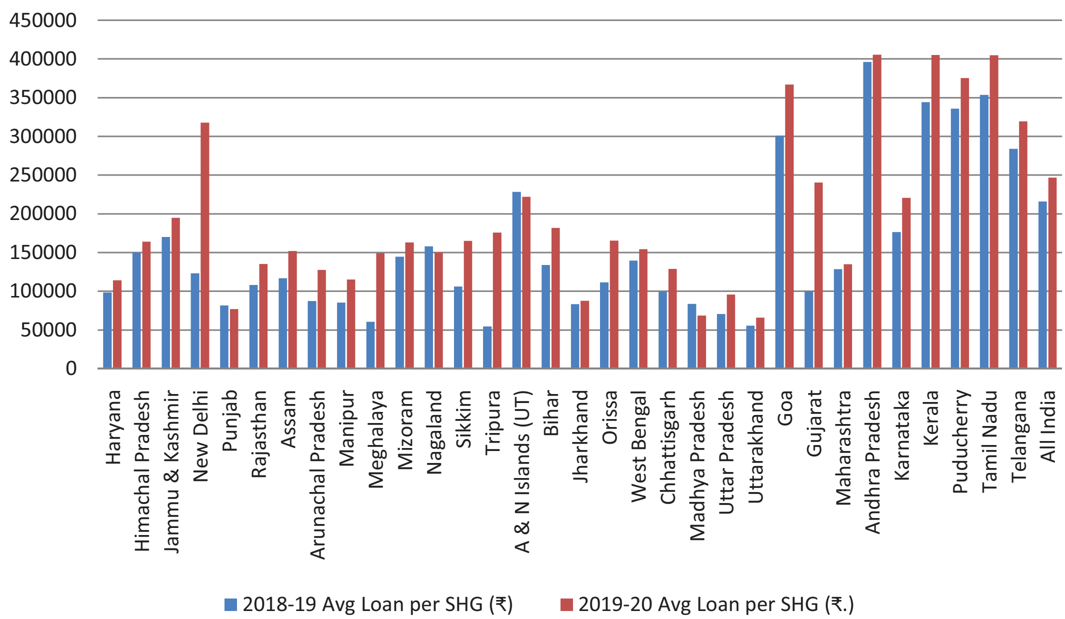

recording a modest 11.8 per cent per cent increase in number of SHGs and 24 per cent increase in the amount of loan outstanding during the year (Table 4.4). The rise in the amount of loan outstanding with SHGs is mainly due to increased credit disbursement during the year. As compared to the previous year, there is considerable increase in the overall number of SHGs having bank loan outstanding at the end of March 2020. Inter region and intra region disparities are perceptible in both number of SHGs having loan outstanding as well as the quantum of loan outstanding during the year. Against 55.4 per cent SHGs having loan outstanding at all India level, Southern Region has maximum concentration with 76.4 per cent, followed by Eastern Region (69.5 per cent) and Central region (31.2 per cent). All other Regions have low credit penetration to SHGs as evinced from Fig 4.8

Among the states, only Telangana has a higher density of credit linkage of SHGs. Many of the SHGs in Telangana have bank loan under Cash Credit, investment credit and state government loan schemes which lead to more number of loan accounts than the number of SHGs in the state. High rate of loan outstanding in southern states, Bihar and West Bengal, etc. was owing to wider credit coverage of SHGs having credit linkage during past 2-3 years. Credit coverage was lower in certain smaller states and North Eastern states. However, major states like Maharashtra, Gujarat, Rajasthan, Madhya Pradesh, and Tamil Nadu also have relatively low credit linkage of SHGs as on 31 March 2020. This percentage was lowest amongst the smaller states in Nagaland (11.1 per cent) and among larger states in Punjab (15.4 per cent).

4.7 NPAs in SHG-BLP

NPAs under bank loans to SHGs as on 31 March 2020 were 4.92 per cent as compared to 5.2 per cent as on 31.03.19 (Table 4.5). Though NPA has declined marginally by 0.28 percentage points yet the rise in absolute level of NPA amount in recent years is a cause for concern. It had increased by 17.6 per cent from ₹4,524 crore in 2018-2019 to ₹5,321 crore as on 31 March 2020.

As regards NPAs at regional level, the southern region has the maximum bank loan disbursement and maximum credit linkage of SHGs, and has seen an increase in the NPA level to 3.76 per cent from the previous year level of 3.53 per cent (Fig 4.9). All other Regions had the NPA level higher than the all India level of 4.92 per cent except the Eastern Region. North East Region has the highest NPA level of 26.08 per cent which has decreased by 7 percentage points during 2019-20. Eastern Region and Western Region has successfully reduced the NPA level during the year by 0.73 and 1.32 percentage points respectively. The overall NPA position in Eastern Region declined to 4.46 per cent in 2019-20 from 5.19 per cent in 2018-19. Fall in the Gross NPA amount was also observed in other states like Arunachal Pradesh, Meghalaya, Maharashtra, Tripura, Gujarat, Haryana and Punjab. This is indicative of better recovery of bank loans to SHGs in these states.

Among the states, maximum NPA level was witnessed in Uttar Pradesh (42.97 per cent), Haryana (38.8 per cent), Tripura (30.9 per cent), Assam (27.9 per cent), Uttarakhand (27.0 per cent) and Arunachal Pradesh (24.3 per cent) (Fig 4.10). All these states were having high NPA level during the previous year and their NPA level has declined during the year 2019-20. The state-wise status of NPAs in bank loans to SHGs is given in Statement VI.

4.8 Agency-wise distribution of SHG Bank Linkage Programme

Recognizing the importance of financial inclusion in overall economic development of people, the banking sector has been proactive in expanding microfinance through expansion of savings and credit linkage of SHGs. Commercial Banks by virtue of their vast network took the lead in Self Help Group Bank Linkage Programme (SHG-BLP). More than half (54.7 lakh, 53.4 per cent) of the SHGs in the country maintain their savings account with the Commercial Banks. During 2019-20, the share of Commercial Banks in terms of saving linked SHGs decreased marginally from 54.7 per cent (2018-19) to 53.4 per cent and it accounted for 59.9 per cent of the savings outstanding of SHGs (Table 4.6). On the other hand, 32.6 Lakh (31.8 per cent) SHGs maintain their savings bank account with RRBs. During the year 1.8 lakh SHGs have been savings linked with RRBs. SHGs associated with RRBs have savings outstanding of ₹7,811 crore making up for 30 per cent of the total savings outstanding under SHG-BLP. RRBs recorded a decrease of 4.16 per cent in their average savings outstanding per SHG during 2019-20 (Table 4.7). The cooperatives continued with their subdued performance under SHG-BLP with 14.7 per cent SHGs and 10.2 per cent of savings outstanding. Bank-wise status of savings outstanding of SHGs as on 31 March 2020 is given in Statement IA.

Commercial Banks have a robust share in the credit flow to SHGs with disbursement of ₹48,431 crore to 17.9 lakh SHGs. During the year loan disbursement by Commercial Banks increased from ₹34,492 crore to ₹48,431 crore registering a growth of 40.4 per cent and an increase of 18.7 per cent of SHGs as compared to the year 2018-19. RRBs have registered a considerable jump from 30.78 lakh to 32.61 lakh of SHGs registering a growth of 5.9 percent in number of SHGs and 23.93 per cent in quantum of loan disbursed to SHGs during 2019-20. Cooperative banks have extended credit of ₹4,996.6 crore to 2.56 lakh SHGs during this period recording an increase of 16.9 per cent in the quantum of credit disbursed and an increase of 4.7 per cent in the number of SHGs respectively as compared to the year 2018-19. 5. MFI - BANKS LINKAGE PROGRAMME

"Microfinance stands as one of the most promising and cost-effective tools in the fight against global poverty."

5.1 MFI – Banks Linkage Programme

Micro finance institutions have expanded the frontiers of institutional finance and have brought the poor, especially poor women, into the formal financial system and enabled them to access credit and fight poverty. Though some significant strides have been made in upscaling the reach of micro finance, it is observed that microfinance has had an asymmetric growth across the country with diverse rates of interest being charged to the members, which are areas of concern.

As per Sa Dhan Report 2019-20, as on 31 March 2020 the combined micro credit portfolio (i.e. total loan outstanding) of 191 lenders is ₹2,28,669 crores of which NBFC- MFI (86) and Non Profit MFIs (30) together has share of ₹76,674 crore (33.53%). Both NBFC-MFIs and Non Profit MFIs had registered 38% year on year growth during 2019-20.

Taking into consideration the important role played by MFIs in delivering credit to those in the bottom of the economic pyramid and enable them to play their assigned role in a growing economy, the Reserve Bank of India (RBI), in its 4th Bi-Monthly Monetary Policy Press Conference held on 04 October 2019 has increased the household income limit for borrowers of NBFC – MFIs from ₹1.00 lakh to ₹1.60 Lakh for rural and from ₹1.25 lakh to ₹2.00 lakh for urban areas. Further, the lending cap for eligible borrowers has been raised to ₹1.25 lakh, against the earlier limit of ₹1 lakh, to improve credit availability in rural and semi-urban areas.

The decision is expected to improve the flow of credit to the economically weaker sections of the society. The increase in household income limit will also allow banks to classify more loans as "microfinance" on their books, allowing more liquidity being made available to NBFC-MFIs. Normally, banks purchase microfinance loans from smaller lenders to ensure that their priority sector loan requirement is met.

On March 27, 2020, the RBI permitted all commercial banks (including regional rural banks, small finance banks and local area banks), co-operative banks, all India Financial Institutions, and NBFCs (including housing finance companies and micro- finance institutions) to allow a moratorium of three months on payment of instalments in respect of all term loans outstanding as on March 1, 2020. In view of the extension of the lockdown and continuing disruptions on account of COVID-19, it has been decided to permit lending institutions to extend the moratorium on term loan instalments by another three months, i.e., from June 1, 2020 to August 31, 2020.

FINDINGS OF STUDIES COMMISSIONED BY NABARD DURING 2019-20

NABARD has been giving emphasis on research and development, and conduct of various studies for policy inputs from the very beginning. In order to fulfil the same, NABARD has been conducting various studies to acquire new insights into the problems of agricultural and rural development through in-depth studies and applied research and trying out innovative approaches backed up by technical and economic studies. Microfinance sector has witnessed phenomenal growth in the recent past which has brought about new challenges & opportunities. As a pioneer of the SHG movement, NABARD has been closely watching the developments in the sector. Keeping in view the dynamism of the movement, NABARD had commissioned quite a few Studies with reputed agencies and as well as in-house to understand the subtle issues for policy interventions. Synopsis of study reports of 2019-20 are enumerated below:

A Issues in Credit Linkage of SHGs – A Quick study in Arunachal Pradesh

A quick study on "Issues in Credit Linkage of SHGs" was conducted by Arunachal Pradesh RO in the three districts of Lower Subansiri (LS), Lower Dibang Valley (LDV) and Changlang of Arunachal Pradesh with an objective to look into the ground level progress in implementation SHG-BLP, to understand the extent of SHG formation and credit linkage of SHGs, factors leading to poor SHG Bank Linkage and high NPAs and to recommend measures to improve SHG –BLP in the state and reduce NPA. The study covered 50 SHGs in 30 villages covering 73 SHG members.

Important Findings:

❖ Financing of farm activities was very low primarily on account of poor demand and collateral related issues. Farm-holds generally depend on own sources for financing farm activities, and rarely attempted any commercialization and crop diversification. Inadequate loan facility, lack of skill and training activity, poor marketing opportunities, less cooperation from group members, were the major causes for not taking up the group activities.

❖ **Formation of SHGs:** Several socio/economic/ geographical and behavioural factors influenced SHG formation in Arunachal Pradesh. (i) Challenging geography, (ii) Contented life of the inhabitants, (iii) Lack of entrepreneurship habits, (iv) Lack of SHPIs, (v) Lack of interest by banks in SHG - BLP, (vi) Non-viability of SHG –Bank linkage activity for the promoters (on account of poor infrastructure, sparse population, high cost involved), (vii) Poor showcasing of success stories, (viii) Lack of homogeneity among members due to substantial diversity in tribe, culture, (ix) Political interference in group activities leading to disintegration of groups and (x) Grant culture and indifference to avail credit.

❖ **Reasons for NPAs:** (i) Low level of income due to small size of holding, lack of activity/ crop diversification, (ii) Failure of units started with loan, lack of alternative sources

Drafted by Smt Didla Sumana, AGM

of income, (iii) Expectations of Grant culture and un-familiar with loan culture, lack of awareness on the consequences of default and benefit of prompt repayment. (iv) Lack of persuasion due to absence of mediating agency, lack of guidance, (v)Poor relationship with banks, lack of business / repayment plan. (vi) Staff constraints in Banks (short duration stay), violation in lending norms, poor appraisal of loans and poor follow up (vii) Lack of support from line departments.

Conclusions:

❖ SHG-BLP programme in Arunachal Pradesh is confronted with multiple predicaments such as geographical constraints, lack of infrastructure, absence of suitable facilitating agencies, political interference in group activities, low level of credit linkage of the matured groups, high NPAs etc.

❖ The study observed that SHGs in the state are strong and have good potential for absorbing bank credit through this channel. It also highlighted that it is possible to recover the loan if the banks adopt rigorous follow up and good relationship.

❖ The study concludes that the provisions and relaxations existing under the SHG-BLP norms are adequately taking care of the geographical/territorial limitations of the state, hence warrant no change.

Suggestions:

❖ Suitable incentives to support the operations of reputed and credible promotional agencies in the state may be introduced.

❖ Government may provide institutional support for improving recovery of SHG loan and confidence of banks. Strengthening of ArSRLM and to introduce district/regional level layer. A Credit Guarantee Scheme may also be planned through ArSRLM to improve the comfort level of banks in financing SHGs.

❖ Active involvement of banking sector in SHG-BLP. SLBC may fix bank wise targets and DLRC/DCC may fix branch wise targets. Banks may also strengthen their awareness on SHG-BLP, appraisal, monitoring and recovery skill/mechanism.

❖ On-location training on income generating activities, entrepreneurship development programmes to be conducted to enhance the skills of the members. To open at least two more RSETIs in the state to facilitate training to the rural masses including SHG members. Capacity building of all the functionaries taking part in implementation of SHG-BLP, by involving Community Resource Persons.

B. Joint Liability Groups(JLGs) : Innovations and Impact

CRFIM conducted the study on "Joint Liability Groups(JLGs) : Innovations and Impact" with the objectives to study the level of indebtedness and adequacy of bank credit to the JLG

Households, assess impact of JLG programme on credit flow to SF/MF/tenant farmers, extent of income generating activities supported through the JLG financing, analyse JLG financing model of Public Sector Banks, Private Sector Banks, RRBs and Cooperative banks and assess coverage of tenant farmers/share croppers/oral lessees and FPOs under JLG scheme. The overall sample comprised 7 states, 7 districts, 28 bank branches, 128 JLGs and 336 JLG members.

Important statistical observations:

i. Ninety six percent of the sample borrowers belonged to weaker sections. 60% belonged to SC/ST/BC households and 36% were from BPL category. Thus, the JLG scheme benefitted socially and economically weaker sections of the society. 45% of borrowers were indebted to more than one source. The average indebtedness of sample borrowers across all the states varied within the range of ₹20,836/- to ₹48,227/-.

ii. The average share of institutional and non–institutional sources in household's debt was 78% and 22% respectively. On an average, 50% of sample borrowers were totally indebted to JLG loan (i.e., they were meeting their entire credit requirement from JLG alone). A large segment (75%) of sample JLG borrowers reported that bank loan offered under JLG scheme was inadequate. This was due to stipulation of upper limit on loan by few banks. Incidentally, this upper limit is much below the limit of Rs.1.00 lakh prescribed for loans without collateral security under JLG scheme.

iii. FPOs and farmers clubs have played a key role in facilitating collateral free credit to tenant farmers. Majority (85%) of sample borrowers have used JLG loan for income generating activities. JLG loans have extensively been used for working capital requirement of livelihood activities by the households. JLG loan was also used for diversification of livelihood activities of households. JLG loan was a source of institutional credit for pursuing alternative means of livelihoods.

Conclusions:

❖ A large segment of vulnerable sections of society have been benefitted by JLG scheme. The scheme has reduced dependency on non – institutional sources and increased share of bank credit to households' debt of marginal, small and landless farmers.

❖ The study observed that JLG scheme has brought positive changes in individual member level and household's level, by way of improvement in household income, creation of household assets, easy access to bank credit, coverage under insurance schemes and opening of savings bank account of the JLG members. It also contributed significantly in households' alternative means of livelihoods.81% reported improvement of household income level, 66% created household assets, 33% changed cropping pattern and 58% reported reduction in hurdles for accessing bank credit.

- The scheme served the credit needs of marginal and small farmers including landless farmers having no land titles and documents. It has enhanced the ground level credit flow to marginal, small and tenant farmers in all the sample states, which has resulted in reduction in dependency on money lender and MFIs.

- FPOs and farmers clubs have played a key role in facilitating JLG loans to landless farmers. Role of NGOs, BCs/BFs and banks' own staff was also impressive in augmenting collateral free institutional credit under JLG scheme. A separate vertical has been set up by private sector banks with dedicated manpower to cater to JLG clients while majority of public sector banks and RRBs have utilised the services of BCs and NGOs. Credit needs of tenant farmers and share croppers have mostly been served by RRBs and cooperative banks.

Suggestions:

- Increase in per borrower loan: Study suggests that banks may consider enhancing the ceiling, if any, on the loan limit up to ₹1.00 lakh per borrower.

- Designing loan products as per the borrowers' requirement: Banks may provide JLG loan for small business units, artisans, in cash credit nature with a provision of annual review for enhancement of limit, if necessary.

- Engagement of Corporate BC: Banks may consider adopting the model of corporate BC to form and nurture JLGs. The revenue sharing model of banks and BCs may be worked out mutually. The BC may be responsible for providing end to end solutions, market research, client sourcing, forming, appraisal, linking, monitoring and recovery follow up. Further, in well performing BCs, the facility of sanction and disbursement of micro loans may be considered on a selective basis.

- Capacity building of JLG borrowers: The JLG borrowers may be provided need-based skill oriented training on improved and modern technologies and entrepreneurship development for better management of their activities. Moreover, capacity building of the borrowers regarding group dynamics especially, peer pressure and JLG functioning process may be provided extensively by promoting agencies.

- Increase in Grant assistance by NABARD to JLGPIs: The amount of incentive for JLGPIs may be sufficiently enhanced to keep them in the operations and also attract new partners to achieve the objectives of the JLG Scheme. Further, the incentive schedule may be drawn in a manner that last instalment may be on a higher side / sufficient enough to keep the JLGPIs going till the completion of the project.

I. SIXTH WORLD CONGRESS ON RURAL AND AGRICULTURAL FINANCE

NABARD hosted the 6th World Congress on Rural and Agricultural Finance in association with APRACA, on 12-13 November 2019 in New Delhi. The aim of the 6th World Congress was to bring APRACA, AFRACA, ALIDE, CICA and NENARACA member institutions and all interested development sector partners together to discuss the topics that define the future of the flow of finance to the rural and agricultural sector and to bring a powerful message to the worldwide policymaking community. The two-day Congress was inaugurated by Hon'ble Finance Minister, Smt. Nirmala Sitharaman alongside Shri Debashish Panda, Additional Secretary (Financial Inclusion), Dept. of Financial Services, Shri Senarath Bandara, CEO - Bank of Ceylon and Chairman of APRACA and Dr Harsh Kumar Bhanwala, Chairman, NABARD and Vice Chairman, APRACA.

The Finance minister indicated the Government's resolve to put the farmers' concerns and rural development on a larger landscape. She appealed that there is a need for the farmers contributing in solar energy generation, participation in wind energy, installing solar panels in the farms, etc. also to become an Urjadaata from Annadata. The Government was also focusing on the priorities of fishermen in the coastal and inland water areas. Mr. Debasish Panda, IAS, Additional Secretary, Department of Financial Services emphasized on the need for financial inclusion for inclusive and sustainable development. He indicated that JAM Trinity will be further leveraged to drive financial inclusion.

Dr Harsh Kumar Bhanwala, Chairman, NABARD stated that agriculture credit every year to small and marginal farmers will be enhanced with the formation 10,000 FPOs, as announced in this year's Budget . Further Technology Interventions would bolster financial inclusion and rural financing efforts.

- One of the key takeaways was that out of 17 Sustainable Development Goals (SDGs), 6 of them highlight the role of the youth in its sustainability. Digital technology is creating new opportunities for youth in non-farm sector. Initiatives and investments aimed at creating self-employment opportunities for rural youth in non-farm sector involving digital technology may be taken up as this will not only enhance their income but will also reduce their migration to urban areas.

- The focus on agri-value chain financing will help reduce risk and vulnerabilities of farming community. Therefore, Govt. of India in partnership with agencies like IFAD/FAO need to focus on developing an ecosystem to facilitate greater credit flow to the entire agriculture value chain.

During the course of the two-day Congress, deliberations were held on varied topics like "Mainstreaming Sustainable Agriculture to Achieve 2030 Agenda", "Smallholder aggregation Model for Efficient Value Chain and their Financing", "Credit flow to agriculture and its value chain to achieve revitalized rural landscape and deliver inclusive growth", "Agricultural Value Chain Finance Innovations and Lessons: Case Studies in Africa" etc.

During the closing session, Shri M K Jain, Deputy Governor, Reserve Bank of India delivered the "Way Forward" for rural development, financial inclusion and agriculture sector development. He made a case for incentivizing banks to extend loans to poor in backward areas in a bid to promote financial inclusion especially in the most backward credit starved regions of the country to ensure faster development.

The 6th World Congress ended with all the member institutions signing the New Delhi Declaration to strengthen rural and agricultural finance initiatives across the globe.

A short field visit to Agra was also arranged for the benefit of some of the interested foreign Delegates. The delegates visited the Taj Mahal, UNESCO World heritage site. The team also visited the Agra DCCB wherein the Bank officials showed the mobile vans sponsored by NABARD for Agra DCCB as also Aryavat Gramin Bank. They highlighted the Mobile Van's usage and its functioning and utility for the rural people.

The session Sustaining MSMEs through Microfinance was chaired by Shri S.V. Sardesai, Principal, NBSC and the session on Graduation of SHGs/JLGs Federations to Producers Organisations/Collectives was led by Shri Mithilesh Kumar, GM, MCID, NABARD. The key takeaways were that Standardisation of KYC documents by all financing agencies was needed to reflect accurate indebtedness of borrowers in credit bureau platforms as this would address the over indebtedness on account of multiple loans. Involvement of RSETI was required in pre and post sanction phases for nurturing and capacity building of entrepreneurs. Further on the theme of producer organisations, it was indicated that well performing federations can be transformed into producer's organisations for providing various support services to primary producers. Social mobilization is a key parameter for addressing sustainability aspects of POs as also a mechanism is required for nurturing FPOs for good governance and better management on a continuous basis.

b) **SHG Bank Linkage Programme - Way Forward** chaired by Smt Rajashree Baruah CGM, MCID, NABARD, Head Office

The Key takeaways were that the scope of digital finance needs to be expanded with the help of the technology services provided by NPCI. Further, Aadhaar enabled technological solutions should be made available at bank branch level for appraising micro loans under SHGs, KCC and JLGs. Banks and Financial Institutions have to partner with Fin Tech Companies actively to achieve the last mile connectivity. The need for making technology driven financial services and technology available in the remotest areas in a cost effective manner to ensure demand and supply balance. Extending the scope of financial inclusion beyond opening of saving bank accounts and providing the whole gamut of financial services using technology would requires close coordination and association of financial institutions and Fin Tech companies. The synergy between Financial Institutions and NRLM is required in effectively using the large SHG customer base to reach out to the poor and vulnerable sections and for promoting bank sakhis as business correspondents
