FARM THE TRANSITION

13–16

OCTOBER

Novotel Sukhumvit 20
Bangkok, Thailand

Be at the forefront of sustainable agricultural finance

100+ delegates from 20+ countries, curated and small by design: regulators, agrifood and input industry leaders, development agencies, alongside peer financial institutions. Get firsthand insights on how regulatory and market shifts in agrochemicals are taking shape and what they mean for your portfolio.

Curated tracks of various technical topics in agriculture: tap into sector expertise to make informed lending and investment decisions, design financial products that work in the agriculture sector, and be a reliable partner for clients on their transition to safer and low-pollution agriculture – farmers, retailers, commodity trading and food businesses alike.

A closed-door session for financial institutions to explore practical tools and approaches that can support them in assessing and acting on pollution-related risks and opportunities in agriculture.

2026 FARM Biennial Forum

The FARM Forum brings together the sector experts, policymakers and implementation partners that financial institutions need in the room to **make informed decisions on agricultural lending and investment that supports the reduction of harmful agrochemical and plastics.**
